

## Clinical trial results:

### A Phase II Study of PNT2258 in Patients With Richter's Transformation (RT)

#### Summary

EudraCT number	2015-001814-85
Trial protocol	GB BE HU
Global end of trial date	07 June 2016

#### Results information

Result version number	v1 (current)
This version publication date	13 March 2020
First version publication date	13 March 2020

#### Trial information

##### Trial identification

Sponsor protocol code	PNT2258-04-Richter's
-----------------------	----------------------

##### Additional study identifiers

ISRCTN number	-
ClinicalTrials.gov id (NCT number)	NCT02378038
WHO universal trial number (UTN)	-

Notes:

#### Sponsors

Sponsor organisation name	ProNAi Therapeutics, Inc. (now known as Sierra Oncology)
Sponsor organisation address	46701 Commerce Center Drive, Plymouth Michigan, United States, 48170
Public contact	Corporate Affairs, Sierra Oncology, info@sierraoncology.com
Scientific contact	Corporate Affairs, Sierra Oncology, info@sierraoncology.com

Notes:

#### Paediatric regulatory details

Is trial part of an agreed paediatric investigation plan (PIP)	No
Does article 45 of REGULATION (EC) No 1901/2006 apply to this trial?	No
Does article 46 of REGULATION (EC) No 1901/2006 apply to this trial?	No

Notes:

## Results analysis stage

Analysis stage	Final
Date of interim/final analysis	22 August 2016
Is this the analysis of the primary completion data?	Yes
Primary completion date	07 June 2016
Global end of trial reached?	Yes
Global end of trial date	07 June 2016
Was the trial ended prematurely?	Yes

Notes:

## General information about the trial

Main objective of the trial:

To assess overall response rate (ORR) defined as the proportion of patients with complete response (CR) or partial response (PR) according to the revised 2014 International Working Group (IWG) criteria for lymphomas based upon blinded independent review.

Protection of trial subjects:

An Independent Data Monitoring Committee was established in order to monitor the ongoing safety of subjects enrolled in the study.

Background therapy: -

Evidence for comparator: -

Actual start date of recruitment	15 October 2015
Long term follow-up planned	No
Independent data monitoring committee (IDMC) involvement?	Yes

Notes:

## Population of trial subjects

### Subjects enrolled per country

Country: Number of subjects enrolled	United States: 5
Worldwide total number of subjects	5
EEA total number of subjects	0

Notes:

### Subjects enrolled per age group

In utero	0
Preterm newborn - gestational age < 37 wk	0
Newborns (0-27 days)	0
Infants and toddlers (28 days-23 months)	0
Children (2-11 years)	0
Adolescents (12-17 years)	0
Adults (18-64 years)	0
From 65 to 84 years	5
85 years and over	0

## Subject disposition

### Recruitment

Recruitment details:

The study was initiated in August 2015 and the first subject was enrolled on 27 October 2015. Enrollment was closed as of 07 June 2016. Subjects were enrolled at oncology clinics in the USA.

### Pre-assignment

Screening details:

7 subjects entered screening. 2 subjects did not meet the eligibility criteria, and thus 5 subjects were enrolled to the study.

### Period 1

Period 1 title	Overall trial (overall period)
Is this the baseline period?	Yes
Allocation method	Not applicable
Blinding used	Not blinded

### Arms

Arm title	PNT2258
-----------	---------

Arm description:

PNT2258 administered at 120 mg/m<sup>2</sup> on days 1-5 of a 21-day cycle for 8 induction cycles followed by continuation phase therapy at a dose of 100 mg/m<sup>2</sup> on days 1-4 of a 28-day cycle.

Arm type	Experimental
Investigational medicinal product name	PNT2258
Investigational medicinal product code	
Other name	
Pharmaceutical forms	Dispersion for infusion
Routes of administration	Intravenous use

Dosage and administration details:

PNT2258 administered at 120 mg/m<sup>2</sup> on days 1-5 of a 21-day cycle for 8 induction cycles followed by continuation phase therapy at a dose of 100 mg/m<sup>2</sup> on days 1-4 of a 28-day cycle.

Number of subjects in period 1	PNT2258
Started	5
Completed	0
Not completed	5
Disease progression	4
Death	1

## Baseline characteristics

### Reporting groups

Reporting group title	Overall trial
Reporting group description: -	

Reporting group values	Overall trial	Total	
Number of subjects	5	5	
Age categorical			
Units: Subjects			

Age continuous			
Units: years			
median	73		
full range (min-max)	65 to 76	-	
Gender categorical			
Units: Subjects			
Female	2	2	
Male	3	3	

## End points

### End points reporting groups

Reporting group title	PNT2258
Reporting group description: PNT2258 administered at 120 mg/m <sup>2</sup> on days 1-5 of a 21-day cycle for 8 induction cycles followed by continuation phase therapy at a dose of 100 mg/m <sup>2</sup> on days 1-4 of a 28-day cycle.	

### Primary: Overall Response Rate

End point title	Overall Response Rate <sup>[1]</sup>
End point description: Proportion of subjects with complete response (CR/CMR) or partial response (PR/PMR)	
End point type	Primary
End point timeframe: 2 months	
Notes: [1] - No statistical analyses have been specified for this primary end point. It is expected there is at least one statistical analysis for each primary end point. Justification: Not applicable due to the small number of subjects analyzed.	

End point values	PNT2258			
Subject group type	Reporting group			
Number of subjects analysed	5			
Units: subjects	0			

### Statistical analyses

No statistical analyses for this end point

### Secondary: Disease Control Rate

End point title	Disease Control Rate
End point description: Proportion of subjects with stable disease or better (CR/CMR, PR/PMR or SD/NMR)	
End point type	Secondary
End point timeframe: 2 months	

<b>End point values</b>	PNT2258			
Subject group type	Reporting group			
Number of subjects analysed	5			
Units: subjects	0			

## Statistical analyses

No statistical analyses for this end point

## Secondary: Duration of Overall Response

End point title	Duration of Overall Response
-----------------	------------------------------

End point description:

End point type	Secondary
----------------	-----------

End point timeframe:

2 months

<b>End point values</b>	PNT2258			
Subject group type	Reporting group			
Number of subjects analysed	0 <sup>[2]</sup>			
Units: months				
median (full range (min-max))	( to )			

Notes:

[2] - No data displayed because endpoint has zero total participants analyzed.

## Statistical analyses

No statistical analyses for this end point

## Secondary: Time to Response

End point title	Time to Response
-----------------	------------------

End point description:

End point type	Secondary
----------------	-----------

End point timeframe:

2 months

<b>End point values</b>	PNT2258			
Subject group type	Reporting group			
Number of subjects analysed	0 <sup>[3]</sup>			
Units: months				
median (full range (min-max))	( to )			

Notes:

[3] - No data displayed because endpoint has zero total participants analyzed.

## Statistical analyses

No statistical analyses for this end point

## Secondary: Overall Survival

End point title	Overall Survival
-----------------	------------------

End point description:

End point type	Secondary
----------------	-----------

End point timeframe:

2 months

<b>End point values</b>	PNT2258			
Subject group type	Reporting group			
Number of subjects analysed	0 <sup>[4]</sup>			
Units: months				
median (full range (min-max))	( to )			

Notes:

[4] - No data displayed because endpoint has zero total participants analyzed.

## Statistical analyses

No statistical analyses for this end point

## Adverse events

### Adverse events information

Timeframe for reporting adverse events:

From the first dose of PNT2258 until 30 days after the last dose of PNT2258

Adverse event reporting additional description:

Events assessed as at least possibly related to PNT2258 are considered to be causally related to treatment.

Assessment type	Non-systematic
-----------------	----------------

### Dictionary used

Dictionary name	MedDRA
-----------------	--------

Dictionary version	18.1
--------------------	------

### Reporting groups

Reporting group title	Overall trial
-----------------------	---------------

Reporting group description: -

Serious adverse events	Overall trial		
Total subjects affected by serious adverse events			
subjects affected / exposed	4 / 5 (80.00%)		
number of deaths (all causes)	2		
number of deaths resulting from adverse events			
Cardiac disorders			
Atrial fibrillation			
alternative assessment type: Systematic			
subjects affected / exposed	1 / 5 (20.00%)		
occurrences causally related to treatment / all	0 / 1		
deaths causally related to treatment / all	0 / 0		
Cardiomyopathy			
alternative assessment type: Systematic			
subjects affected / exposed	1 / 5 (20.00%)		
occurrences causally related to treatment / all	1 / 1		
deaths causally related to treatment / all	0 / 0		
Nervous system disorders			
Haemorrhage intracranial			
alternative assessment type: Systematic			
subjects affected / exposed	1 / 5 (20.00%)		
occurrences causally related to treatment / all	1 / 1		
deaths causally related to treatment / all	1 / 1		

General disorders and administration site conditions			
Disease progression			
alternative assessment type: Systematic			
subjects affected / exposed	1 / 5 (20.00%)		
occurrences causally related to treatment / all	0 / 1		
deaths causally related to treatment / all	0 / 1		
Pyrexia			
alternative assessment type: Systematic			
subjects affected / exposed	1 / 5 (20.00%)		
occurrences causally related to treatment / all	0 / 1		
deaths causally related to treatment / all	0 / 0		
Infections and infestations			
Listeriosis			
alternative assessment type: Systematic			
subjects affected / exposed	1 / 5 (20.00%)		
occurrences causally related to treatment / all	0 / 1		
deaths causally related to treatment / all	0 / 0		
Pneumonia			
alternative assessment type: Systematic			
subjects affected / exposed	1 / 5 (20.00%)		
occurrences causally related to treatment / all	1 / 1		
deaths causally related to treatment / all	0 / 0		
Metabolism and nutrition disorders			
Hypercalcaemia			
alternative assessment type: Systematic			
subjects affected / exposed	1 / 5 (20.00%)		
occurrences causally related to treatment / all	0 / 1		
deaths causally related to treatment / all	0 / 0		

Frequency threshold for reporting non-serious adverse events: 0 %

Non-serious adverse events	Overall trial		
Total subjects affected by non-serious adverse events			
subjects affected / exposed	5 / 5 (100.00%)		
Neoplasms benign, malignant and unspecified (incl cysts and polyps)			
Tumour pain			
alternative assessment type: Systematic			
subjects affected / exposed	1 / 5 (20.00%)		
occurrences (all)	1		
Vascular disorders			
Embolism			
alternative assessment type: Systematic			
subjects affected / exposed	1 / 5 (20.00%)		
occurrences (all)	1		
Hypertension			
alternative assessment type: Systematic			
subjects affected / exposed	2 / 5 (40.00%)		
occurrences (all)	2		
Hypotension			
alternative assessment type: Systematic			
subjects affected / exposed	1 / 5 (20.00%)		
occurrences (all)	1		
General disorders and administration site conditions			
Chest discomfort			
alternative assessment type: Systematic			
subjects affected / exposed	1 / 5 (20.00%)		
occurrences (all)	1		
Chest pain			
alternative assessment type: Systematic			
subjects affected / exposed	2 / 5 (40.00%)		
occurrences (all)	2		
Chills			
alternative assessment type: Systematic			
subjects affected / exposed	1 / 5 (20.00%)		
occurrences (all)	1		
Early satiety			

<p>alternative assessment type: Systematic</p> <p>subjects affected / exposed</p> <p>occurrences (all)</p>	<p>1 / 5 (20.00%)</p> <p>1</p>

<p>Infections and infestations</p> <p>Cytomegalovirus viraemia</p> <p>alternative assessment type: Systematic</p> <p>subjects affected / exposed</p> <p>occurrences (all)</p>	<p>1 / 5 (20.00%)</p> <p>1</p>		

Urinary tract infection alternative assessment type: Systematic subjects affected / exposed occurrences (all)	1 / 5 (20.00%) 2		
Metabolism and nutrition disorders Decreased appetite alternative assessment type: Systematic subjects affected / exposed occurrences (all)	1 / 5 (20.00%) 1		
Dehydration alternative assessment type: Systematic subjects affected / exposed occurrences (all)	1 / 5 (20.00%) 1		
Fluid overload alternative assessment type: Systematic subjects affected / exposed occurrences (all)	1 / 5 (20.00%) 1		
Hyperglycaemia alternative assessment type: Systematic subjects affected / exposed occurrences (all)	1 / 5 (20.00%) 2		
Hypermagnesaemia alternative assessment type: Systematic subjects affected / exposed occurrences (all)	1 / 5 (20.00%) 1		
Hypokalaemia alternative assessment type: Systematic subjects affected / exposed occurrences (all)	2 / 5 (40.00%) 2		
Hypomagnesaemia alternative assessment type: Systematic subjects affected / exposed occurrences (all)	1 / 5 (20.00%) 1		
Hypophosphataemia alternative assessment type: Systematic			

subjects affected / exposed	2 / 5 (40.00%)		
occurrences (all)	2		

## More information

### Substantial protocol amendments (globally)

Were there any global substantial amendments to the protocol? Yes

Date	Amendment
24 March 2016	This protocol amendment: <ul style="list-style-type: none"><li>- allowed for the enrollment of first line Richter's transformation patients</li><li>- updated the definition for response evaluable population and per protocol analysis populations</li><li>- added additional organ function requirements (bone marrow function and coagulation profile)</li><li>- added exclusion criteria of ongoing risk of bleeding and CNS or leptomeningeal involvement of lymphoma</li><li>- increased the minimum period to use acceptable methods of contraception after treatment cessation</li></ul>

Notes:

### Interruptions (globally)

Were there any global interruptions to the trial? Yes

Date	Interruption	Restart date
07 June 2016	On the basis of interim data assessments, the study was closed to further enrollment.	-

Notes:

### Limitations and caveats

Limitations of the trial such as small numbers of subjects analysed or technical problems leading to unreliable data.

Early termination of enrollment, and thus very few subjects were analyzed..

Notes:
