

ADME BIOANALYSES

Bioanalytical report

Gamamabs reference: C201  
Eurofins|ADME BIOANALYSES reference:18-118B

Confidentiality level: high

**Table 1. Plasma concentrations (ng/mL) of Trifluridine measured in patients after GM102 weekly administration at the dose of 7mg/kg combined with trifluridine/tipiracil (Lonsurf®) at the dose of 35 mg/m<sup>2</sup>/dose administered orally twice daily on Days 1 to 5 and Days 8 to 12 of each 28-day cycle**
