

Clinical trial results:

A Multicenter, Randomized, Double-blind, Placebo-controlled, Parallel-group Study to Evaluate the Efficacy and Safety of Dupilumab in Adult and Adolescent Patients with Moderate-to-Severe Atopic Hand and Foot Dermatitis

Summary

EudraCT number	2019-003088-22
Trial protocol	DE PL
Global end of trial date	23 November 2022

Results information

Result version number	v1 (current)
This version publication date	07 June 2023
First version publication date	07 June 2023

Trial information

Trial identification

Sponsor protocol code	R668-AD-1924
-----------------------	--------------

Additional study identifiers

ISRCTN number	-
ClinicalTrials.gov id (NCT number)	NCT04417894
WHO universal trial number (UTN)	-

Notes:

Sponsors

Sponsor organisation name	Regeneron Pharmaceuticals, Inc.
Sponsor organisation address	777 Old Saw Mill River Road, Tarrytown, United States, 10591
Public contact	Clinical Trials Administrator, Regeneron Pharmaceuticals, Inc., 001 844-734-6643, clinicaltrials@regeneron.com
Scientific contact	Clinical Trials Administrator, Regeneron Pharmaceuticals, Inc., 001 844-734-6643, clinicaltrials@regeneron.com

Notes:

Paediatric regulatory details

Is trial part of an agreed paediatric investigation plan (PIP)	No
Does article 45 of REGULATION (EC) No 1901/2006 apply to this trial?	No
Does article 46 of REGULATION (EC) No 1901/2006 apply to this trial?	No

Notes:

Results analysis stage

Analysis stage	Final
Date of interim/final analysis	23 November 2022
Is this the analysis of the primary completion data?	No
Global end of trial reached?	Yes
Global end of trial date	23 November 2022
Was the trial ended prematurely?	No

Notes:

General information about the trial

Main objective of the trial:

To assess the efficacy of dupilumab on skin lesions in participants with atopic hand and foot dermatitis

Protection of trial subjects:

It is the responsibility of both the sponsor and the investigator(s) to ensure that this clinical study will be conducted in accordance with the ethical principles that have their origin in the Declaration of Helsinki, and that are consistent with the ICH guidelines for GCP and applicable regulatory requirements.

Background therapy: -

Evidence for comparator: -

Actual start date of recruitment	14 April 2021
Long term follow-up planned	No
Independent data monitoring committee (IDMC) involvement?	No

Notes:

Population of trial subjects

Subjects enrolled per country

Country: Number of subjects enrolled	United States: 28
Country: Number of subjects enrolled	Japan: 13
Country: Number of subjects enrolled	Poland: 44
Country: Number of subjects enrolled	Germany: 48
Worldwide total number of subjects	133
EEA total number of subjects	92

Notes:

Subjects enrolled per age group

In utero	0
Preterm newborn - gestational age < 37 wk	0
Newborns (0-27 days)	0
Infants and toddlers (28 days-23 months)	0
Children (2-11 years)	0
Adolescents (12-17 years)	27
Adults (18-64 years)	102
From 65 to 84 years	4

85 years and over	0
-------------------	---

Subject disposition

Recruitment

Recruitment details: -

Pre-assignment

Screening details:

A total of 170 participants were screened, 37 participants failed screening, and 133 participants were randomized. Of the 37 screen failures: 2 withdrew consent, 33 did not meet inclusion/exclusion criteria, 1 was lost to follow-up and 1 was for an unknown reason.

Period 1

Period 1 title	Overall Study (overall period)
Is this the baseline period?	Yes
Allocation method	Randomised - controlled
Blinding used	Double blind
Roles blinded	Subject, Investigator, Monitor, Carer, Assessor

Arms

Are arms mutually exclusive?	Yes
Arm title	Matching Placebo

Arm description:

Administered subcutaneously (SC) once every 2 weeks (Q2W), following a loading dose on Day 1

Arm type	Placebo
Investigational medicinal product name	Placebo
Investigational medicinal product code	
Other name	
Pharmaceutical forms	Solution for injection
Routes of administration	Subcutaneous use

Dosage and administration details:

Administered SC Q2W, following a loading dose on Day 1

Arm title	dupilumab
------------------	-----------

Arm description:

Administered SC Q2W, following a loading dose on Day 1

Arm type	Experimental
Investigational medicinal product name	dupilumab
Investigational medicinal product code	REGN668
Other name	DUPIXENT® SAR231893
Pharmaceutical forms	Solution for injection
Routes of administration	Subcutaneous use

Dosage and administration details:

Administered SC Q2W, following a loading dose on Day 1

Number of subjects in period 1	Matching Placebo	dupilumab
Started	66	67
Completed	53	60
Not completed	13	7
Consent withdrawn by subject	7	6
Lost to follow-up	3	-
Lack of efficacy	3	1

Week 16; (n = 48, 6, 4)	51.2 (± 22.0)	34.0 (± 10.7)	37.1 (± 15.9)	
Week 28; (n = 43, 2, 5)	7.37 (± 25.0)	60.0 (± 84.9)	7.54 (± 16.9)	

Statistical analyses

No statistical analyses for this end point

Secondary: Percentage of Participants with Treatment-Emergent Anti-Drug Antibody (ADA)

End point title	Percentage of Participants with Treatment-Emergent Anti-Drug Antibody (ADA)
End point description:	
The ADA analysis set (AAS) includes all treated participants who received any amount of study drug (active or placebo [safety analysis set]) and had at least one non-missing ADA result following the first dose of study drug or placebo. The ADA analysis set is based on the actual treatment received (as treated) rather than as randomized. Here 'n' = number of evaluable participants at a specified point in time.	
End point type	Secondary
End point timeframe:	
Up to Week 28	

End point values	Matching Placebo	Dupilumab 300 mg - Adult Participants	Dupilumab 200 mg - Adolescent Participants	Dupilumab 300 mg - Adolescent Participants
Subject group type	Subject analysis set	Subject analysis set	Subject analysis set	Subject analysis set
Number of subjects analysed	55	49	6	6
Units: Percentage				
number (not applicable)				
Persistent TE Response (n = 55, 49, 6, 6)	0.0	4.1	0.0	0.0
Transient TE Response (n = 55, 49, 6, 6)	1.8	0.0	0.0	0.0
Indeterminate TE Response (n = 55, 49, 6, 6)	0.0	10.2	0.0	16.7

Adverse events

Adverse events information

Timeframe for reporting adverse events:

From first dose to week 28

Assessment type	Systematic
-----------------	------------

Dictionary used

Dictionary name	MedDRA
-----------------	--------

Dictionary version	25.1
--------------------	------

Reporting groups

Reporting group title	Matching Placebo
-----------------------	------------------

Reporting group description:

Administered subcutaneously (SC) once every 2 weeks (Q2W), following a loading dose on Day 1

Reporting group title	Dupilumab
-----------------------	-----------

Reporting group description:

Administered SC Q2W, following a loading dose on Day 1

Serious adverse events	Matching Placebo	Dupilumab	
Total subjects affected by serious adverse events			
subjects affected / exposed	1 / 66 (1.52%)	3 / 67 (4.48%)	
number of deaths (all causes)	0	0	
number of deaths resulting from adverse events			
Neoplasms benign, malignant and unspecified (incl cysts and polyps)			
Metastases to lung			
subjects affected / exposed	0 / 66 (0.00%)	1 / 67 (1.49%)	
occurrences causally related to treatment / all	0 / 0	0 / 1	
deaths causally related to treatment / all	0 / 0	0 / 0	
Adenocarcinoma of colon			
subjects affected / exposed	0 / 66 (0.00%)	1 / 67 (1.49%)	
occurrences causally related to treatment / all	0 / 0	0 / 1	
deaths causally related to treatment / all	0 / 0	0 / 0	
Nervous system disorders			
Syncope			
subjects affected / exposed	0 / 66 (0.00%)	1 / 67 (1.49%)	
occurrences causally related to treatment / all	0 / 0	0 / 1	
deaths causally related to treatment / all	0 / 0	0 / 0	
Dizziness			

subjects affected / exposed	0 / 66 (0.00%)	1 / 67 (1.49%)	
occurrences causally related to treatment / all	0 / 0	0 / 1	
deaths causally related to treatment / all	0 / 0	0 / 0	
Infections and infestations			
Appendicitis			
subjects affected / exposed	1 / 66 (1.52%)	0 / 67 (0.00%)	
occurrences causally related to treatment / all	0 / 1	0 / 0	
deaths causally related to treatment / all	0 / 0	0 / 0	
Post procedural infection			
subjects affected / exposed	0 / 66 (0.00%)	1 / 67 (1.49%)	
occurrences causally related to treatment / all	0 / 0	0 / 1	
deaths causally related to treatment / all	0 / 0	0 / 0	

Frequency threshold for reporting non-serious adverse events: 5 %

Non-serious adverse events	Matching Placebo	Dupilumab	
Total subjects affected by non-serious adverse events			
subjects affected / exposed	34 / 66 (51.52%)	33 / 67 (49.25%)	
Investigations			
Blood creatine phosphokinase increased			
subjects affected / exposed	1 / 66 (1.52%)	4 / 67 (5.97%)	
occurrences (all)	1	4	
Skin and subcutaneous tissue disorders			
Dermatitis atopic			
subjects affected / exposed	16 / 66 (24.24%)	6 / 67 (8.96%)	
occurrences (all)	18	6	
Infections and infestations			
COVID-19			
subjects affected / exposed	14 / 66 (21.21%)	11 / 67 (16.42%)	
occurrences (all)	14	11	
Nasopharyngitis			
subjects affected / exposed	8 / 66 (12.12%)	16 / 67 (23.88%)	
occurrences (all)	13	18	
Upper respiratory tract infection			

subjects affected / exposed	3 / 66 (4.55%)	7 / 67 (10.45%)	
occurrences (all)	3	9	

More information

Substantial protocol amendments (globally)

Were there any global substantial amendments to the protocol? No

Interruptions (globally)

Were there any global interruptions to the trial? No

Limitations and caveats

None reported
