

**Patient Reported Food Consistency: Morning**

**Patient Reported Food Consistency: Evening**

Food Consistency    NG-Tube    Liquid    Soft    Normal    No Answer

Food Consistency    NG-Tube    Liquid    Soft    Normal    No Answer

NG-Tube: Naso-gastric feeding tube.  
 There was no statistical significant difference when comparing the proportion of patient reported food consistencies between the two groups each day using Fishers exact test, except on postoperative day 4 on the morning assessment (p=0.04)
