

Clinical trial results:

The effects of melatonin treatment on bone, marrow, sleep and arterial stiffness in postmenopausal women

Summary

EudraCT number	2020-002934-34
Trial protocol	DK
Global end of trial date	01 February 2022

Results information

Result version number	v1 (current)
This version publication date	24 May 2023
First version publication date	24 May 2023

Trial information

Trial identification

Sponsor protocol code	2020-AKA
-----------------------	----------

Additional study identifiers

ISRCTN number	-
ClinicalTrials.gov id (NCT number)	NCT04864509
WHO universal trial number (UTN)	-

Notes:

Paediatric regulatory details

Is trial part of an agreed paediatric investigation plan (PIP)	No
Does article 45 of REGULATION (EC) No 1901/2006 apply to this trial?	No
Does article 46 of REGULATION (EC) No 1901/2006 apply to this trial?	No

Notes:

Results analysis stage

Analysis stage	Final
Date of interim/final analysis	01 February 2022
Is this the analysis of the primary completion data?	Yes
Primary completion date	01 February 2022
Global end of trial reached?	Yes
Global end of trial date	01 February 2022
Was the trial ended prematurely?	No

Notes:

General information about the trial

Main objective of the trial:

Changes in gene expression in mesenchymal stem cells

Protection of trial subjects:

At every visit the participants were asked whether or not they had experienced adverse event to the treatment.

Background therapy: -

Evidence for comparator: -

Actual start date of recruitment	23 May 2021
Long term follow-up planned	No
Independent data monitoring committee (IDMC) involvement?	Yes

Notes:

Population of trial subjects

Subjects enrolled per country

Country: Number of subjects enrolled	Denmark: 41
Worldwide total number of subjects	41
EEA total number of subjects	41

Notes:

Subjects enrolled per age group

In utero	0
Preterm newborn - gestational age < 37 wk	0
Newborns (0-27 days)	0
Infants and toddlers (28 days-23 months)	0
Children (2-11 years)	0
Adolescents (12-17 years)	0
Adults (18-64 years)	22
From 65 to 84 years	19
85 years and over	0

Subject disposition

Recruitment

Recruitment details:

Participants were invited by letter. Recruitment period was from May to September 2021

Pre-assignment

Screening details:

Participants responding positively to the invitation received a questionnaire regarding exclusion criteria. Those who did not fulfill the exclusions criteria received further information about the study. They were further invited to an interview at the study place.

Period 1

Period 1 title	Overall period trial (overall period)
Is this the baseline period?	Yes
Allocation method	Randomised - controlled
Blinding used	Double blind
Roles blinded	Investigator, Monitor, Subject

Blinding implementation details:

Glostrup Pharmacy randomized the participants (using a computer) into blocks of 2,4, and 8 participants. The block-sizes were unknown to the investigators. The participants as well as the investigators were blinded to the study drug allocation

Arms

Are arms mutually exclusive?	Yes
Arm title	Melatonin

Arm description:

Nightly dose og 10mg melatonin

Arm type	Active comparator
Investigational medicinal product name	melatonin
Investigational medicinal product code	
Other name	
Pharmaceutical forms	Coated tablet
Routes of administration	Oral use

Dosage and administration details:

10 mg nightly

Arm title	Placebo
------------------	---------

Arm description:

Placebo

Arm type	Placebo
Investigational medicinal product name	Placebo
Investigational medicinal product code	
Other name	
Pharmaceutical forms	Coated tablet
Routes of administration	Oral use

Dosage and administration details:

10 mg nightly

Number of subjects in period 1	Melatonin	Placebo
Started	21	20
Completed	19	20
Not completed	2	0
Adverse event, non-fatal	1	-
Illness in the nearby family	1	-
